ERDMAN Celebrates A New Home With Habitat for Humanity

Madison, Wisconsin. (March 8, 2018) – ERDMAN proudly celebrates the home dedication to Rosario and her son Grant with Habitat for Humanity. On a beautiful summer morning, ERDMAN team members grabbed hardhats and hammers and graciously utilized their design and building skills to build the exterior and interiors walls for two Habitat homes, one of which is Rosario and Grant’s. This was a fun way for the ERDMAN team to give back to our community and live our vision of “Improving Every Life We Touch.” With the additional help from six Dane County churches, Rosario and Grant’s home is nearly finished and they look forward to moving in next month.

ERDMAN is a strong believer in giving back to the community and offers eight hours of company-paid time each year for employees to volunteer and engage in our communities. Our annual work with United Way of Dane County has resulted in more than \$1M in employee and company donations in the last 15 years.

“I am honored and blessed to be able to help in providing a home and a dream for a local family,” says Brian Happ, CEO, ERDMAN. “We enjoyed working side by side with Rosario to create her home while also providing an inspired team building opportunity for employees.”

About ERDMAN

At ERDMANSM, we believe the questions of new service offerings, population health, patient experience, new care models, and facilities are not separate, isolated challenges. We believe by looking at these challenges through multiple perspectives simultaneously, we come up with more effective and efficient solutions. Through our Integrative Thinking, we take on the complex challenges of healthcare to help our clients build healthier communities. www.erdman.com.
